

Sirs,

I respectfully request that you reject NAB's petition 04-160. I am a current XM subscriber, and I find one of the most valuable benefits is the instant traffic and weather. I would not be so concerned if I had an alternative service available. Unfortunately such a service of equal frequency and quality is not offered on either the FM or AM bands. Therefore I request that you reject any attempts to remove a service that is valuable and that we as subscribers are willing to pay for.

Thank you for your consideration,

James Lee
